

Technical Data

ARTICLE INFO

The TH 0/30 is a two-position controller that switches with a changeover contact at the set threshold. The returned continuous signal is evaluated by the ventilation or SHEV control panel and the connected actuators are activated.

Adjustable temperature range from 0 °C to 30 °C

The thermostat TH0 / 30 has an adjustable temperature range from 0 °C to 30 °C and is used as an internal temperature-dependent automatic release for ventilation purposes in SHE and ventilation systems. On request, an electronic thermostat with remote sensor is possible.

Thermostat at a glance:

- freely adjustable threshold temperature for thermostat type TH from 0 °C to 30 °C
- Can be combined with other operating elements in the building

TECHNICAL DATA

Matchcode	TH 0/30
Article name	Thermostat TH 0/30
Part number	A3 4551
IP code	IP 30
Weight	0.08
Housing	Plastic 75 x 75 x 25 mm
Housing type	Plastic
Colour	white
Housing length	75
Housing width	75
Housing depth	25
